

PROCEDURES MANUAL			
	CONTROL OF DOCUMENTS		
	Document No.	MP-DRC-01	Effective Date
	Revision No.	14	Page
			01-Jul-2024
			1 of 10

Prepared by	Reviewed by	Approved by
 ROLLY T. MACARANAS /  JEIMY R. CATINDIG Quality Assurance and Control Engineer, Quality Assurance and Control	 CATHERINE G. BRINGINO Head, Corporate Process Management  MA. OCELYN J. SALINAS Head, Process and Standard	 MARIO ANGELITO A. DE LOS REYES Head, Quality Assurance and Control

1. OBJECTIVES

- 1.1. To ensure that all documents within the Management System (MS) are reviewed and approved for adequacy and suitability.
- 1.2. To ensure all corporate policies and procedures are properly documented, monitored, available and accessible to all stakeholders.
- 1.3. To ensure that only updated documents are distributed to copy holders and that unapproved or obsolete documents are prevented from their unintended use.

2. SCOPE

- 2.1. This covers the identification, creation, review, approval, issuance and release, and retrieval of internal documents including Management System Manuals, Procedures, Policies, Support Documents, and standard forms.
- 2.2. This also applies to the following external documents.
 - 2.2.1. ISO books/standards
 - 2.2.2. Industry codes and standards
 - 2.2.3. National laws/regulations
 - 2.2.4. Occupational Safety and Health and Environmental Standards
- 2.3. This procedure does not include disposal of documents and records. It is covered in the Record Management Procedure Manual (MP-DRC-03).

3. DEFINITION OF TERMS

- 3.1 Confidential – information which the data owners have decided not to publish or make public and protected by contractual obligations
- 3.2 Controlled Copy – refers to a copy of the document reproduced from the master copy and distributed to identified end-users of the document through print or the EDMS
- 3.3 Document Action Request (DAR) – a form used to bring to the attention of the copyholders that an MS document has just been added, deleted, or revised
- 3.4 Document Custodian – a person who is in charge or custody of the master copy of a document

This document is **CONFIDENTIAL** and for internal use only. This is not intended for disclosure outside MIESCOR except under written agreement. Non-compliance to this standard is subject to the MIESCOR Code of Employee Discipline. This document is considered uncontrolled if printed or saved outside the Management System document library.

			2 of 10

- 3.5 Electronic Document Management System (EDMS) – generic term for software used for the electronic exchange and storage of documents and records (i.e. SharePoint)
- 3.6 External Documents – documents that are generated and updated by organizations or entities outside of MIESCOR and are needed to enhance QMS implementation. Examples are industry or engineering codes & standards, international management system standards, reference laws and regulatory documents. Not classified as External Documents under this definition are:
- 3.6.1 Technical papers/magazines/ brochures/literatures.
- 3.6.2 Project specific documents (from external providers, clients, vendors or government agencies) which are controlled per procedure MP-DRC-02
- 3.7 Form – a printed or digital standard template with blank fields to be filled in with required or requested information
- 3.8 Master Copy – refers to the original and wet signed copy of the registered document, retained and accessed by the Document Custodian and used for reproducing copies to be distributed
- 3.9 Policy – organization-wide, issue-specific, or system-specific statement supported by implementing rules and guidelines where processes align
- 3.10 Policy Statement – general commitment or direction formally stated by top management
- 3.11 Procedure – step by step instructions on how to carry out an activity or process
- 3.12 Process Owner vs Process Champion
- 3.12.1 Process Owner – department head accountable for creating, sustaining, and improving a particular process
- 3.12.2 Process Champion – Level 1 head responsible for providing guidance and directions to the process owners within his scope and shares their accountabilities in creating, sustaining, and improving processes
- 3.13 Superseded – status of document that has been rendered unfit for its intended use, either by issuance of new revision, or by declaring it as obsolete
- 3.14 Uncontrolled Copy – Distribution status of document released for information, reference, training, or limited use only. Holders of such copy are not entitled to receive subsequent revisions of the documents and circulation is not controlled. Controlled copies in the EDMS, when printed, downloaded, or saved elsewhere are considered uncontrolled.

4. PROCEDURE AND GUIDELINES

Control of Internal Documents

- 4.1. The originator shall identify need for document action – creation of new one, revision or deletion of existing ones. This may arise from corrective/preventive action and/or system

Prepared By:  RTM JRC	Reviewed By:  CGB MJS	Approved By:  MAADLR
--	--	---

This document is **CONFIDENTIAL** and for internal use only. This is not intended for disclosure outside MIESCOR except under written agreement. Non-compliance to this standard is subject to the MIESCOR Code of Employee Discipline. This document is considered uncontrolled if printed or saved outside the Management System document library.

review on the implementation of the management systems, introduction of new services and/or processes, or a change in the management structure.

4.2. The process owner/authorized personnel shall prepare the document using the standard template, following the recommended format.

4.2.1. The standard format for the Policy Manual, Management System Manual, Procedure Manual and Support Document Manual are as follows:

4.2.1.1. Use A4-sized paper with default normal margins (2.54cm on all sides)

4.2.1.2. The header shall contain the following. Text for the header shall be in Calibri, bold, font size 12.

4.2.1.2.1. Company logo

4.2.1.2.2. Manual Name – Examples are Policy Manual, Management System Manual, Procedures Manual, and Support Document Manual

4.2.1.2.3. Document Name – title spelled in capital letters

4.2.1.2.4. Document Number

4.2.1.2.5. Revision Number – starting from 0

4.2.1.2.6. Effective Date – DD-Mmm-YYYY

4.2.1.2.7. Page Number

4.2.1.3. Do not put “upon approval” or other indefinite statements for the effective date. Leave it blank when printing if unsure of when document will be signed. Fill in this section by manually writing final effective date.

4.2.1.4. The names and signatures of the people who prepared, reviewed, and approved the document shall be on the first page. All pages must be signed by all signatories.

4.2.1.5. Text for the body shall be in Calibri, regular, font size 11.

4.2.1.6. Any addendum or revision on the document shall be italicized.

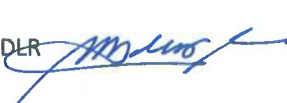

4.2.1.7. Use decimal outline format.

4.2.1.8. The footer shall contain text in Calibri font, size 10, that says “This document is **CONFIDENTIAL** and for internal use only. This is not intended for disclosure outside MIESCOR except under written agreement. Non-compliance to this standard is subject to the MIESCOR Code of Employee Discipline. This document is considered uncontrolled if printed or saved outside the Management System document library.”

4.2.2. The Policy Manual must contain the following sections. Guidelines are as follows.

4.2.2.1. Policy Statement

4.2.2.1.1. Quote the high-level corporate policy issued by Top Management.

Prepared By:  RTM JRC	Reviewed By:  CGB MJJS	Approved By:  MAADLR

			4 of 10

Example: All assets issued by the company to an employee remains a property of the company and must be responsibly used for the benefit of the company. Employees are accountable for assets issued to them.

4.2.2.1.2. State policy specific to a certain function or process, aligned to the corporate policy.

Example: All exiting employees must be cleared from outstanding financial and non-financial obligations upon exit of separation from the Company.

4.2.2.2. Objectives

4.2.2.2.1. Explain the business objectives of writing and enforcing the policy.

Example: This policy aims to implement a just-in-time materials inventory system at MIESCOR.

4.2.2.2.2. Outline the benefits of realizing the policy.

Example: The JIT system will reduce administrative costs and expenditure on excess materials that cannot be returned to the manufacturer.

4.2.2.3. Scope

4.2.2.3.1. Define who/what groups are covered and expected to follow the rules.

4.2.2.3.2. Identify the process/es affected by the policy.

4.2.2.3.3. Cite exclusions, if any.

4.2.2.4. Definition of Terms

4.2.2.4.1. Do not just spell out acronyms. Definition should help the reader understand what the term means.

4.2.2.5. Principles

4.2.2.5.1. This serves as the primary content of the policy.

4.2.2.5.2. Define rules that need to be strictly followed.

4.2.2.5.3. Decisions must adhere to these.

Examples: Employees are not allowed to post comments that are malicious and disrespectful to MIESCOR and its subsidiaries in social media.

4.2.2.5.4. Principles may include procedures, standards, controls, and approval matrices.

4.2.2.6. Roles and Responsibilities

4.2.2.6.1. Outline who is responsible for what.

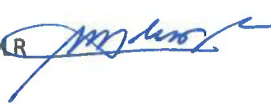

4.2.2.6.2. Assignments must be made on the basis of functional role, not by staff name.

- 4.2.2.7. Reference Documents
- 4.2.2.7.1. Enumerate document title and/or number and attach references which may include forms, template for reports, procedures and guidelines for related process, policies, etc.
- 4.2.2.8. Revision Details
- 4.2.2.8.1. For monitoring purposes, indicate revision number, effective date, and changes from the previous version. Maintain tracking of revision number and date since Rev. 0, but only the last revision requires details of the changes.
- 4.2.3. The Procedure Manual must contain the following sections. Guidelines are as follows.
- 4.2.3.1. Objectives
- 4.2.3.1.1. Define objectives for having the document.
Example: To outline the conduct of corporate planning with the end-view of direction setting, goals and resources aligning, and performance monitoring.
- 4.2.3.1.2. Define objectives for mapping the process.
Example: To show the interface between corporate planning and enterprise-wide risk management planning, budget preparation, and employee performance evaluation.
- 4.2.3.1.3. Define benefits and issues that will be addressed by the new process.
Example: To ensure that all tools and equipment issued by the Company to its employees are accounted for.
- 4.2.3.2. Scope
- 4.2.3.2.1. Define start and end of process.
- 4.2.3.2.2. Define who/what groups are covered and expected to follow the procedure and guidelines.
- 4.2.3.2.3. Cite exclusions, if any.
- 4.2.3.3. Definition of Terms
- 4.2.3.3.1. Do not just spell out acronyms.
- 4.2.3.3.2. Definition should help the reader understand what the term means.
- 4.2.3.4. Procedure and Guidelines
- 4.2.3.4.1. Outline step-by-step guide of the procedure, a narrative of the process.
- 4.2.3.4.2. Use the active voice (doer + action + direct object) and describe how it should be done.

- 4.2.3.4.3. Define timelines or schedules.
- 4.2.3.4.4. Indicate requirements, documents, references, and output.
Example: The Purchaser shall prepare the Purchase Order (PO) in SAP within two days after receipt of the approved Purchase Request (PR).
- 4.2.3.5. Appendix/Appendices
 - 4.2.3.5.1. Insert process maps and standard forms.
 - 4.2.3.5.2. Label your appendices.
Example: Appendix A: Leads Generation Process Map.
- 4.2.3.6. Reference Documents
 - 4.2.3.6.1. Enumerate and attach references which may include forms, template for reports, procedures and guidelines for related process, policies, etc.
- 4.2.3.7. Revision Details
 - 4.2.3.7.1. For monitoring purposes, indicate revision number, effective date and changes from the previous version. Maintain tracking of revision number and date since Rev 0, but only the last revision requires details of the changes.
- 4.2.4. Forms may be printed or electronic. Forms must have a header containing the company logo, form name, document number, revision number (starting from 0), and effective date (DD-Mmm-YYYY). For printed forms, the page number and total number of pages (Page # of #), if more than one page, is also required.
- 4.2.5. A high-level Policy Statement document must have the company logo, policy title, name and signature of the President and CEO, effective date (DD-Mmm-YYYY) and revision number (starting at 0).
- 4.3. The process owner/authorized personnel shall request the Document Number from the Document and Records Controller or Person-in-charge. See also SD-DRC-01.
 - 4.3.1. Policies, Procedures, Support Documents, Forms are assigned with permanent document numbers.
 - 4.3.2. The Management System Manual uses the Document Name/Title as its unique identification.

4.4. The process owner/authorized personnel shall submit the document for approval.

4.4.1. For new internally generated document or revision to existing document, ensure the document gets reviewed and approved as follows:

Document/Manual	Reviewing Authority	Approving Authority
Management System Manual	Management System Administrator (MSA)	President
Policy Manual	Process Owner, Primary stakeholders, Corporate Process Management Head	President
Procedure Manual	Process Owner, Corporate Process Management Head	Process Champion
Support Document	Process Owner	Process Champion
Form	Process Owner, Corporate Process Management Head	Process Champion
Document Action Request (DAR)	Corporate Process Management Head or Quality Assurance/Process and Standards Head	Management System Administrator

If the Process Owner is also the Process Champion, he only needs to sign as approve. For the DAR, if the Management System Administrator is one of the authorized reviewers, he only needs to sign as approver, but at least one other reviewer is required.

4.4.2. For any changes, the process owner/authorized personnel shall inform originator to incorporate or resolve comments.

4.5. The process owner/authorized personnel shall prepare a Document Action Request (DAR) and submit final and signed documents to QAC Department.

4.5.1. One DAR is enough to cover one document or group of forms (attachments) belonging to one parent document.

4.6. The Document and Records Controller or Person-in-charge shall review the request and submit the DAR and final documents to the Management System Administrator for approval.

4.6.1. Check if the required fields and attachments are complete.

4.6.2. For Management System documents, check for conformance to the ISO standard, alignment in style and format, and formal registration into the Management System.

4.6.3. Any errors in a signed document can be corrected by authorized personnel by:

4.6.3.1. Lining out the erroneous entry (white-outs or erasures not acceptable)

4.6.3.2. Adding or substituting it with the correct one, and

- 4.6.3.3. Signing or initializing and dating the change
- 4.6.4. For any changes, the Document and Records Controller or Person-in-charge shall inform originator to incorporate or resolve comments.
- 4.7. The Document and Records Controller or Person-in-charge shall execute document action.
- 4.7.1. The controlled copy of the added or revised document shall be *scanned and* uploaded into the EDMS and shared to all concerned employees. The SUPERSEDED document shall be pulled out from the EDMS, separated and retained for references.
- 4.7.2. The original and wet signed hardcopy document shall be stamped with "MASTER COPY" and shall be kept under the custody of the Document and Records Controller or Person-in-charge. Any request for hard copy of the MS Manual shall be thru Document Request Form. Electronically approved documents shall be printed and stamped with "MASTER COPY".
- 4.7.3. Request for uncontrolled copies to be issued to external parties shall be thru the Document Request Form.
- 4.7.4. The master copy of obsolete documents shall be retained and filed for reference within the archiving period. These are stamped with "SUPERSEDED" in blue ink.
- 4.7.5. Photocopying of master copy and superseded documents is prohibited. The Document and Records Controller or Person-in-charge shall retrieve such unauthorized photocopies discovered.
- 4.7.6. Changes to the intent or content of the management system documents are put in effect by the re-issuance of the complete document.
- 4.7.7. Grammatical, typographical or syntax errors shall not constitute revision to the manual and its attendant procedures or to support documents.
- 4.7.8. Previously issued documents that are generated and re-issued to be part of the management system documentation are reset to Revision 0 for ease of monitoring compliance and tracking of subsequent changes. The final print of such documents shall be routed to QAC Department for checking of style and format prior to release
- 4.8. The Document and Records Controller/Person-in-charge or process owner shall inform end-users of the changes. For any document action processed, Document and Records Controller or Person-in-charge shall also send a memorandum to all concerned employees.
- 4.9. The originator/process owner shall orient end-users of the changes in their document. Proof of orientation may also be done electronically.
- 4.10. The Document and Records Controller or Person-in-charge shall update the master list of documents.
- 4.10.1. Backup copying shall be done at least quarterly or depending on the frequency of document revisions.
- 4.11. The originator/process owner shall conduct an annual review of the MS documents.

Prepared By:  RTM JRC	Reviewed By:  OGB MJJS	Approved By:  MAADLR

	Document No.	MP-DRC-01	Effective Date
	Revision No.	14	Page
			01-Jul-2024
			9 of 10

- 4.11.1. Annual review of MS documents is conducted to ensure that policies, procedures, and guidelines are appropriate for current requirements needed for the effective implementation of the QMS.
- 4.11.2. Any employee can initiate document review and request further action, but the lead document reviewer shall be the Process Owner.
- 4.11.3. QMS Document Review Form shall be used to document the results of or comments arising from such periodic review.
- 4.11.4. Documents that have undergone revision within the same year can be excluded in this review.
- 4.12. The Quality Assurance and Control Head shall evaluate/review results of the annual review of documents. Comments are evaluated for relevance, importance, and urgency to determine the need for further action. If the result indicates that changes to the document or system are needed, the document is taken for revision.
- 4.13. Some Security procedures, forms and supporting documents must be kept confidential within Security Services. Control of such documents shall follow the Control of Confidential Security Documents procedure.

Control of External Documents

- 4.14. Assigned Document Custodian registers the external document (electronic/hard copy) using the Master list of Documents (F-DRC-01).

- 4.14.1. Document Custodian of external documents are the following:

External Document	Document Custodian
ISO Books/ Standards	Quality Assurance and Control
Industry Codes and Standards	Engineering
National Laws/ regulations	HR Division
Occupational Safety and Health and Environmental Standards	Occupational Safety and Sustainability Management

- 4.14.2. Each Document Custodian maintains his own master list of documents.
- 4.14.3. The master copy must be marked "EXTERNAL DOCUMENT" with a stamp for hard copies or watermark for digital copies on its first page.
- 4.15. External documents may not be reproduced in any way, unless allowed by the copyright owner through a document. To reproduce an external document:
 - 4.15.1. Requestor prepares the Document Request Form.
 - 4.15.2. Document Custodian's Head reviews and approves the request.
 - 4.15.3. Document Custodian ensures all pages of each copy have the "CONTROLLED COPY" or "UNCONTROLLED COPY" stamp/watermark, whichever is applicable.
 - 4.15.4. Documents available to the public must still be secured from the Document Custodian to ensure alignment across the whole organization and with concerned external parties.
